Interim Management | Consecutive realisation | Responsible implementation

Do you have any new projects and need to strengthen your team during their realization?

Do you need someone on an interim basis until you hire permanent staff?

Then Interim Management is an ideal solution for you. Our customers are mainly international companies.

Our Interim Managers:

- Have more than 10 years of experience
- Work at least 5 years in the automotive industry
- Have an academic degree
- Have knowledge of foreign languages
- Have know-how of relevant methods (VDA 6.3, Lean Production, Six Sigma, PPAP, APQP, FMEA, KOVP...)

Our Interim Managers cover the following areas:

- Plant management
- Crisis management
- Quality management (serial, to the customer, to the supplier, etc.)
- Supplier Development / Troubleshooting
- Production management (planning, expansion, relocation, Lean etc.)
- Project procurement
- Planning, management and optimization of logistics
- Project management from development to SOP

We operate in countries such as Germany, Spain, Portugal, Czech Republic, Slovakia, Poland, Hungary, Romania, Bulgaria, Turkey, India, China and Mexico.

Due to our extensive network, the interim manager's start date is usually **2 weeks** upon the client's request.
